## Weekly Waste Collection

The vast majority of Levant residents are now required to utilize vendor provided trash bins for the weekly disposal of residential, household waste. For those that now utilize these new bins, please remember the following to ensure proper weekly collection:

- Only the Casella provided bins may be utilized with all waste within the bin
- Front of the cart must face the road (there is an arrow on the top of the bin to illustrate the proper direction)
- The bin lid must close (overloaded bins will generally not be picked up)
- Ensure proper clearance from mailboxes, other bins to allow for collection (3' is recommended)

**Thank you to the residents for your patience and understanding as we continue to adapt to this new process!**
